

Climate Protection Certificate 2025

Walther Faltsysteme GmbH

used in the year 2025 the following quantities of procyclen[®] and recythen[®]:

Type	Impact	Quantity
procyclen [®] PP15 M10 C09 F22	low	698.82

Based on these quantities and their average value of the respective global warming impact product group **low**

of **1.35 kg CO₂e / kg**

the calculated greenhouse gas savings* were

1027.27 t CO₂e

We would like to thank you on behalf of the environment and climate protection!

Interzero Plastics Sorting GmbH

Marcel Thor
Managing Director

*Source: The calculation is based on the Carbon Footprint determined in a cradle-to-gate study with base year 2025 conducted in accordance with UNI EN ISO 14067 and Together for Sustainability guidelines by Interzero Italy S.r.l.

Climate Protection Certificate 2025

Walther Faltsysteme GmbH

used in the year 2025 the following quantities of procyclen® and recythen®:

Type	Impact	Quantity
procyclen® PP04 M60 C10 GF30 F22	medium	182.38

Based on these quantities and their average value of the respective global warming impact product group **medium**

of **1.55 kg CO₂e / kg**

the calculated greenhouse gas savings* were

231.62 t CO₂e

We would like to thank you on behalf of the environment and climate protection!
